SELECTMEN'S REPORT

At the 1970 town meeting there were several projects passed.

The Parking Lot on River Street, the Tyler Bridge, the Town Hall Addition and the purchase of a new Sidewalk Plow. In April we ordered our new sidewalk plow with a savings of approximately $1,000.00. The plow will be paid for in 1972, with $2,500.00 being paid in 1971 and $2,500.00 in 1972.

The Tyler Bridge was the next project; the town appropriated $30,000.00 to repair the bridge. After consultation with two bridge builders in the area, we decided to use as much local help as possible. Not only did this help finish the project last Fall, but also saved approximately $15,000.00, $10,000.00 was paid in 1970, the balance of $5,000.00 will be paid in 1971. We would like to thank Mr. Louis Scheyd for his helpful suggestions.

The Parking Area on River Street was completed. This project is a big improvement to the River Street area. We hope the parking lot can be paved and fenced in the near future, and can be used for off-street parking.

The Addition to the Town Hall was just about completed in 1970. We think this will add to the efficiency of Town Government, and we can finally consolidate our records. The Police Department now has fine facilities and this also will help their operation. The new addition will be financed over 3 years and will be paid for in 1973.

A dangerous intersection at Rt. 202 and the South Road was repaired by the Highway Department. Also a section of road is under construction in the Hatfield area. This area is being constructed under State T. R. A.

There was 600 feet of New Sidewalks completed on Maple Street. This is a start in a project that will eventually give us a sidewalk the full length of Maple Street. Every year we try to construct some new walks as well as maintain the old.

Considering the increase in town and school spending, the increase of $2.30 on our tax rate in 1970 was comparatively low to other towns in the area. This was possible due to the new taxable property and the revaluation of some areas in the town.

At the 1970 Town Meeting after much discussion on a proposal to replace the old flag pole in Hopkinton, Russell Day offered to donate and install a new pole. Mr. Robert York then offered to paint the new pole. In April Mr. Day and Mr. York, with help from many interested volunteers raised the new pole in time for the Memorial Day Services. We would like to take this opportunity to thank Russell, Bob and the others who helped in this fine Public Spirited Contribution.

Respectfully submitted,

Frank Kimball, Chairman

POLICE DEPARTMENT

Your Police Department continued a program of preventive law enforcement, started in prior years, to attempt to minimize accidents and crimes in Hopkinton. This Department will continue strict enforcement of criminal and motor vehicle laws, for the safety and protection of the residents of Hopkinton, and visitors and people passing through Hopkinton.

The illegal use, and abuse, of drugs in our town is a major concern to this Department, as it should be to all citizens of Hopkinton. In 1969, we made 2 drug arrests, with 17 drug related investigations. In 1970, we made 8 drug arrests - half of which were juvenile arrests of young people under 17 years of age. All 8 arrests were successfully prosecuted by this Department, with guilty findings by the courts. In 1970, we investigated 25 citizen complaints of drug abuse, as compared with the 17 investigations in 1969.

Residents can help to minimize the drug problem by supporting and cooperating with the police and citizen groups working towards educating parents, drug offenders and potential drug abusers. Parents should have an open mind to the abuse of drugs and should never say "it can never happen to my kid!"

Juvenile runaways (under 17 years old) tripled in the last year and runaways between ages 17 and 19 doubled in the last year. Illegal possession of alcoholic beverages by minors also doubled last year.

The School Safety Patrol operated successfully for the third year, under the direction of Mrs. Pertice Gaskill. Mrs. Gerhard Fuglestad resigned in 1970 and was replaced by Mrs. Dolores Bailey. I would like to take this opportunity to thank Mrs. Fuglestad for her excellent assistance in the organization of the Safety Patrol and the fine job she did as a crossing guard for the two years she dedicated to the safety of the children in our schools.

Chief Hargrove and Officers Strickford and Jordan attended St. Anselm's College in the evening, on their own time, working toward the Associate Degree in Law Enforcement.

Your Department answered 3,951 telephone calls, travelled 53,316 miles in the town cruiser, to give you 24-hour, 7-day protection.

The Contoocook Valley animal shelter operated for the third year, accepting all kinds of stray and unwanted dogs and other animals and arranging for placement in good homes. Robert Duclos has done a fine job in managing the shelter, supported by the Ella Tarr Trust Fund.

In 1970, the Hopkinton Police Department was given a $300.00 grant from the Governor's Commission on Crime and Juvenile Delinquency, for needed equipment.

For 1971, we have made application for two projects. Number one would give the town $1,500 for the hiring of a third full-time police officer for fifteen weeks during June through September, this officer to work the third shift, during the early morning hours when we now have no one on patrol. If approved

and we are given the $1,500, the town's share would be only $500, which is included in this year's budget request.

The second project is for a police cadet to work with your Police Department for ten weeks during the summer months. The cadet would be a young man from Hopkinton, age 17 to 19, who would work with the police officer on duty in all phases of police work. This program was very successful last year in New Hampshire. Last year, the Governor's Commission funded 30 cadets for New Hampshire police departments, and, in 1971, will fund 50. This project is completely funded by the Governor's Commission, including salary for the cadet, insurance and uniforms. There will be absolutely no cost to the Town for the project.

If both projects are funded, the Town would receive a total of $3,000 in manpower and equipment at a total cost to the Police Department of $500.

The Police Department would like to sincerely thank the citizens of Hopkinton for their support last year in appropriating the necessary funds for new quarters for the Police Department in the Town Hall. These new quarters will improve the efficiency of the Department and will give the necessary privacy to residents, both young and old, in dealing with their problems.

Our thanks are extended to the Selectmen and town officials, and to the citizens, for helping us to do our job. A special thanks to the Fire Department ambulance crew for their excellent assistance at our accidents and other emergencies. The Town should be very thankful for this fine professional service.

James Hargrove
Chief of Police

REPORT OF THE HOPKINTON FIRE DEPARTMENT

This has been a quiet year, with a down trend in calls continuing for the third year in a row. 60 for 1968, 46 for 1969 and 38 for 1970. This trend is not expected to continue unfortunately for the 15 year average goes up and down every 3 to 4 years and we are about at the low point this year. This is a very good record considering the fast growth of our town.

Many volunteer man hours were spent installing forced hot water heat in the meeting and ambulance rooms at the Contoocook station, making it a much more pleasant place to meet and work.

We again sponsored Cub Pack 77 and co-sponsored with the Police Dept. a little league team and a blood bank drawing.

The communication system was strengthened by a new transmitter and new antenna atop a 50 foot tower on the Contoocook station. A base station was added in Chief Salsbury's home. This radio makes manning the stations for ambulance calls unnecessary most of the time, especially at night.

Training schools were held in Laconia and Fitzwilliam, Meadowwood, and also at our own Georges Park, where we sponsored a class on LP gas fires. Men from Warner, Henniker, Dunbarton and Bradford joined our own for a highly successful school. It has been our ever increasing concern over the past few years over the buildup of more and larger residential bulk storage and wider use of LP gas in the town of Hopkinton. There are now two dealers in town with large numbers of tanks stored, also a vast number of trailer tankers are hauling propane through on Interstate 89. This does not in any measure mean that we are trying to alarm anyone but quite the contrary, for at this school it was taught that properly handled and installed, LP gas ranks among the top for safety. Several man have taken this course in previous years at the fire schools and now the entire department participated this year at our own school. We want to be ready in case of an emergency and now consider that we are.

The Fourth of July celebration was again a success with a crowd estimated at 1200 people attending the muster. Miss New Hampshire, Deborah Merrill was parade marshal. Highlight of the day was public auction of Engine 2, a 1944 Ford Maxim pumper, for $1,100.00

HOPKINTON PLANNING BOARD

Following the town's approval of funds, the State entered into a contract with Metcalf & Eddy on the 17th of July for what is known as Section 701 Planning Study.

The objective of this program is

A. To provide immediate protection to the community by giving special attention to zoning, natural resources, and development potential.

B. To assist the community in meeting eligibility criteria for various federal grants and loans.

C. To facilitate communication and understanding, and coordination between the planning board and other town boards and the general citizenry.

The study is to be accomplished in 3 phases. Phase 1 will cover the town's immediate needs that of providing community protection through zoning. This will be done by first providing the physical basis for the zoning through specific studies including future land use and major thoroughfare plans and finally by the preparation of a final zoning ordinance. This will carry us through a 1990 development plan and the preparing of revised maps, etc. Phase 2 will be a further extension of Phase 1 covering all study and planning items which are necessary to complete the comprehensive study. Phase 3 will concern itself with the completion of the physical plan for the future and the programming of any urgently needed improvements in a short term financial or capital improvements program.

The target date for the completion of the study is by May, 1971; however, we are behind schedule. Meetings have been held with Metcalf & Eddy through January, 1971 covering studies on existing land use, soil suitability, traffic and circulation, public utilities, service areas and future growth.

CENTRAL NEW HAMPSHIRE REGIONAL PLANNING COMMISSION

As a result of the 1970 town meeting, Hopkinton entered the Central New Hampshire Regional Planning Commission. At the same time the Central New Hampshire Regional Planning Commission was enlarged to eight municipalities representing 80% of the Region's population. From the support provided by these towns and the City of Concord, the Commission hired a director, established offices, and initiated a two-phase regional planning program.

Phase I involves professional services to municipalities in their planning programs and development concerns. The Regional Commission has supplemented the consultant contract with the Hopkinton Planning Board by providing maps and data in the formulation of the Town Plan.

Phase II involves the completion of regional plans. The certification of the Regional Utility Plan is prerequisite to receiving any Federal aid for the proposed sewerage facilities in Contoocook Village.

In 1971 the Commission will undertake regional studies in Open Space,

Housing, and Solid Waste Disposal, as well as work with communities sharing and preserving major resources such as the Contoocook River.

Hopkinton's representatives to the Regional Commission are Lindsay Collins and Robert Dunning.

REPORT OF THE TOWN CONSERVATION COMMISSION

To the Town of Hopkinton Selectmen:

Your Hopkinton Town Conservation Commission met six times during 1970. Primary subjects of discussion were:

1. The results of the questionnaire made available to Hopkinton residents in 1969, to determine their viewpoints concerning Town problems pertaining to our environment. While various good suggestions developed as a result of this questionnaire, the greatest number indicated a desire to have the Contoocook hen house razed. This has since then occurred.

2. The need for adequate maps for use by the Commission in establishing conservation or acquisition priorities.

3. The problem of filling the vacancy left by the Commission's first Chairman, George Hamilton. It was filled by Dr. Bascom Johnson, who was then voted to act as Chairman, with Walter Dwyer acting as Co-chairman.

4. The drafting of a letter to the Selectmen expressing the Commission's hope that Selectmen would give some consideration toward providing incentives toward keeping open space, particularly with appealing vistas, when properties were being assessed for taxation. It was suggested that any loss of revenue could be recouped at a later date on a retroactive basis, should such open areas be lost due to developments.

5. The feasibility of acquiring power line properties as access ways for Hopkinton residents who enjoyed hiking, snowshoeing, hunting, or snowmobiling.

6. Developing an inventory of areas in the Town having historical or recreational values, to determine whether any should be preserved for posterity.

7. The attendance of one member at the statewide meeting of Town Conservation Commissions at Manchester on Nov. 17, 1970 for an exchange of information and the organization of the N. H. Association of Conservation Commissioners.

8. The establishment of a Town Conservation fund of $250.00, with approval of the Selectmen and the State Tax Commission, to be used as matching funds on future conservation projects.

Respectfully submitted,
Dr. Bascom Johnson, Chairman
Walter Dwyer, Co-chairman

1970 CIVIL DEFENSE REPORT

The year 1970 saw many accomplishments for the Hopkinton Rescue Squad. First was the town's overwhelming support of the volunteer organization by appropriating funds matching those of the townspeople and the raising of $2,000 for the purchase of a new rescue truck. This truck arrived in August of 1970.

Prior to the arrival of the new truck, the rescue squad put finishing touches on the building which had been under renovation for the past year and a half. The dedication of the building was held on May 30 with over 200 people attending. Refreshments were donated and contributed to the enjoyment of the day.

Efforts in training were held at a minimum and were concentrated on First Aid and nuclear disaster methods and getting to know our equipment. The bulk of the efforts were on the new truck and attempting to make it ready for service. These efforts were hampered when the Selectmen declared that monies from the sale of the old truck had to go into the Town General Fund and could not be used as the citizens had agreed upon at the Town Meeting last March. Members of the squad met with the Selectmen but to no avail.

In spite of these hardships, the squad stuck together, meeting weekly and working with what little money they had raised on their own. Although the work is still far from complete, the truck and squad is operable.

The squad is hopeful that the truck can be completed so that they once again can return to training and preparing for any and all emergencies in which they may be called to participate.

Again we thank the people of the town for their support of this organization, and hope for their continued help.

The Article as amended was adopted in the affirmative.

Article 42: The following was offered by Paul S. Otis:

Resolved by the town of Hopkinton, in town meeting convened, that the sum of $1,800. be, and is hereby raised and appropriated to purchase and erect a flag pole near the town monument at Hopkinton Village Square.

Spencer S. Dodd offered the following amendment:

Amend Article 42 by striking out the amount of $1,800. and insert in place thereof the amount of $600., so that the Article as amended shall read:

Resolved by the town of Hopkinton, in town meeting convened, that the sum of $600. be, and is hereby raised and appropriated to purchase and erect a flag pole near the town monument at Hopkinton Village Square.

Amendment was defeated.

Edward C. Leadbeater moved to postpone Article 42 indefinitely. Motion was lost.

James Kelly offered the following amendment:

I would like to strike out the entire Article and insert in place thereof the following:

Resolved by the town of Hopkinton, in town meeting convened, that we accept a flag pole as a gift from Mr. Cyril Bernier (wooden).

Amendment was defeated.

Robert York said that Russell Day would like to give and erect a suitable 60 ft. metal pole with the approval of the Selectmen. Mr. Day confirmed this and agreed to it.

Article 43: The following resolution offered by Walter W. Dwyer, Jr.:

Resolved by the town of Hopkinton, in town meeting convened, that the sum of $21,500. be, and is hereby raised and appropriated for an addition to the rear of the Town Hall for improved facilities for the police department, selectmen's offices and public lavatories, as well as incidental interior improvements of the present building, including acquisition of any necessary additional land or rights or easements required in adjacent premises, and will authorize the board of Selectmen to borrow not more

than the sum of $20,000. in the name of the Town for the purpose and to execute and issue evidence of such indebtedness notes or bonds of the Town of Hopkinton pursuant to the provisions of the Municipal Finance Act and any other applicable laws of the State of New Hampshire.

The Moderator asked for a ballot vote.

Votes cast 211, Yes 106, No 105

The Moderator declared that the failure of two-thirds vote in the affirmative, the Article was not adopted.

(This was in error because two-thirds vote is not required where the borrowing is for no more than $20,000., RSA Chapter 438, Section 2, Laws of 1969).

Article 43 was legally adopted at this time.

Article 44: The following was offered by Irvin Grubbs, Sr.:

Resolved by the town of Hopkinton, in town meeting convened, that the sum of $30,000. be, and is hereby raised and appropriated for repairs and renovation of the town bridge over the Contoocook River at Tyler, and will authorize the Board of Selectmen to borrow not more than the sum of $20,000. in the name of the town for the purpose and to execute and issue evidence of such indebtedness notes or bonds of the town of Hopkinton pursuant to the provisions of the Municipal Finance Act and any other applicable laws of the State of New Hampshire.

The Moderator asked for a ballot vote. Votes cast 169, Yes 137, No 32.

Adopted in the affirmative.

Article 45: The following was offered by Thomas M. O'Donnell:

Resolved by the town of Hopkinton, in town meeting convened, that the sum of $1,500. be, and is hereby raised and appropriated for additional work at the site of the old Patenaude property on River Street in Contoocook Village, including any necessary or emergency work to seal off leakage at any of the water control facilities, as well as to grade and loam the site, prepare a limited public parking area, and to provide any necessary arrangement for protection of the public in the area.

WATER DEPARTMENT – HOPKINTON VILLAGE PRECINCT

A new 2" (inch) water line was extended from the new Hopkinton Village Fire House eastward along the south side of Routes 202, 9 and 103 to the Wylie house, funds which were provided by the State Highway Department – because of a salted well.

Several existing old services were replaced, at the owners' request, and several new customers were added.

The litigation with the R. H. White Company regarding the two 1968 motor failures is still pending (see the 1968 Town Report).

In November 5, 1970 a pump failure at the Briar Hill gravel-packed well occurred. In order to correct the pump problem, the services of the R. E. Prescott Company of Exeter, N. H. have been engaged for redesign and installation of proper pumping and standby facilities. The precinct agreed to this action at a special Bond Meeting on December 10, 1970.

Upon the completion of these improvements it is necessary to replace the old shallow water lines on the south side of Main Street and westward along Routes 202 and 9 with an extension of that line to the vicinity of the Town Shed. This will also allow the addition of several new services, as well as nearly completing the replacement of old water lines.

In addition, a current rate/usage survey is due in 1971.

HOPKINTON SCHOOL DISTRICT
Report of Annual School Meeting
March 10, 1970

At 8:55 in the morning at the Hopkinton Town Hall, the School Meeting was called to order by the Moderator, Richard A. Brunel. An attested copy of the warrant was read by the Moderator.

After action on Article I the meeting was recessed to reconvene at 1:00 p. m. Saturday, March 14, 1970, at the Hopkinton High School Gymnasium to act upon Articles II through IX.

At the above date, time and place, the meeting was reopened by Moderator Richard A. Brunel.

Reverend Calvin Warburton offered prayer.

The Moderator read the warrant, then called for a fifteen minute recess.

Article II

The Chair recognized Donald Ingram who moved that Article II be taken up after Article VIII. Harry Parker seconded the motion. It was adopted in the affirmative.

Article III

The following motion was offered by Irvin Grubbs:

I move that the District authorize the School Board to make application for and accept on behalf of the District, any and all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire for the school year 1970-1971.

The motion was seconded by Robert Caouette.

It was adopted in the affirmative.

Article IV

The Chair recognized Blanche Roberts who offered the following motion:

I move that the reports of agents, auditors, committees and officers chosen be accepted as printed in the School Report, subject to errors or omissions.

The Motion was seconded by Marshall Moyer.

It was adopted in the affirmative.

Article V

The Chair recognizes Ann Babson who offers the following motion:

I move that the District raise and appropriate the sum of $739,892.00 for the support of schools, for payment of salaries for school district officials and agents and for payment of the statutory obligations of the district.

The motion was seconded by Edith Allison.

James Yeager amended the motion to read:

Increase the amount shown by $17,000.00; the additional funds to be used for one additional shop teacher and one additional teacher in an academic subject. The additional funds to be used for capital improvements in the shop program. (This to be added to the original motion.)

The motion was seconded by Roy Cluff.

After a discussion, the amendment was adopted in the affirmative.

The motion as amended was adopted in the affirmative.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Your school system faces many major challenges as it enters the decade of the seventies. So, what else is new? We've said this at the start of every new decade, but still there is a lag between what we ought to be doing in our schools and what we actually are doing. My first report to you as your Superintendent will be devoted to a discussion of a few of the things we would like to see become reality. In essence it will represent our attempt to meet the challenges. I might add "our" is a collective term, for it is your concern as well.

To start with it is necessary to note that if our schools are to truly meet the challenges of the seventies then they must have programs that meet the needs of all children. I know, we've said this before, but I mean something more than tracks for the college and non-college bound, homogenous groupings, remedial education and such. It means things like non-graded schools, individualized instruction, independent study, small and large group instruction, broadened curricula that brings a greater variety of offerings to the student and a breaking away from the traditional grade organization and lock-step school scheduling. The emphasis must be placed on the individual and his needs and abilities and must be reflected in the structure and methods of the schools system. Our ever changing and dynamic society demands an education that prepares one to cope with it. Such is the challenge of the seventies.

What are we doing and what can we do? First what are we doing. You've heard enough about project CAPE our summer curriculum development project. Through this effort we have crested an awareness of our needs in the area of social studies, reading and vocational education. For those who have been closely allied with the project it has been a most valuable in-service experience. For those who have served on projects resulting from the findings of CAPE there too has been a valuable professional experience. For those not involved, as such, other experiences must be provided. Thus, the reality in the project itself and its benefits to those involved. The goal of the future is to restructure CAPE in such a way so as to create greater involvement and to bring to teachers the opportunity to learn new techniques. In particular, planning and using instructional objectives in the instructional process.

The special class begun in September is also a program to meet the needs of children. In this instance children who are mentally handicapped. Presently there is an enrollment of nine. A number of good things have accrued since its inception for the children involved. In addition to their regular classroom program, the class uses facilities at Hillsboro-Deering, attends assemblies and takes occasional field trips. For the future we need better means of identification, new facilities (and I might note we are deeply indebted to the Hillsboro Moose Lodge for the facilities provided) and find ways to involve these young people in the mainstream of school life where practical.

For the child who has learning disabilities, but not to the degree to warrant enrollment in the special class, the new program at Hillsboro-Deering holds

bright promise. In this activity a person with expertise in the field of learning disabilities works with children in the process of identifying problems and then develops programs to correct them. This involves tutorial and small group sessions with the children, conferences with teachers to assist them in understanding the nature of the child's problem and the developing of ways to bring about its solution. Gone is the time when these children were herded together in a special room and so labeled and never to mix with their peers except for special instances. Now the child remains a part of his social group. The difference is that his problems are recognized and things are being done for him. The primary thing being understanding. Hopefully, this program will be adopted in Hopkinton with the idea of a shared service extending the program's benefits to the children of Henniker and eventually to all of the communities within the Union.

The non-graded school with its many benefits for children is a high priority item. Except for isolated efforts on the part of some teachers the idea has not begun to spread. We must begin to explore elementary school reorganization as it pertains to each community in view of the idea that each child is different, that his needs are different and that the present mode of school organization is not necessarily the best to meet the specific needs each child has. Reorganization refers to such thoughts as abolishing the grade labels as such (grade 1, grade 2 etc.) implementation of various modes of organization such as team teaching, small and large group instruction, individualization and continuous progress programs. The latter means that a child progresses at a pace consistent with his abilities and in such a way it is made certain he does not miss basic fundamentals which create the need for most remedial programs. Besides the many advantages for children, school reorganization can bring about better use of the instructional staff, change the emphasis on pupil-teacher ratio and use resources and facilities in different ways. It recognizes the need for in-service training for the staff and calls upon the community for a commitment to a type of educational program that can do much for children and perhaps be more economically efficient. Reorganization is also a must for high school, and for the same reasons. In addition if program expansion is to take place, a break from tradition is needed. Ways must be found to involve community resources in the instructional program. Open campus, schools without walls, independent and individualized study are just a few of the ways it may be possible for small high schools to meet the ever increasing needs of our youth without becoming too economically expensive to maintain. Again the emphasis must be on the need to provide for all students in a manner that is in tune with the tempo of the times.

I could go on, but I think this sets the tone. The reality of the situation and the direction of the future is a program that recognizes each individual for his worth, that makes a school an exciting and challenging place to be not just at the time a child begins but all the way through to graduation.

Tom Watman and I will devote our energies in this direction. We welcome the opportunity and the challenge to respond to the new decade. We solicit your

support for it will be a joint effort if we are to be successful.

And in closing I resort to my tradition, that of a quotation that reflects the essence of what I have tried to say to you. This time I take a short paragraph written by Carl R. Rogers which appeared in the book, "Man Education and Manpower":

> "In the world which is already upon us, the goal of education must be to develop individuals who are open to change, who are flexible and adaptive, who have learned how to learn, and are thus able to learn continuously. Only such persons can constructively meet the perplexities of a world in which the problems spawn much faster than their answers. The goal of education must be to develop a society in which people can live more comfortable with change than with rigidity. In the coming world the capacity to face the new appropriately is more important than the ability to know and repeat the old."

Respectively submitted,

REPORT OF HOPKINTON ELEMENTARY SCHOOLS

Malcolm A. Merrill, Principal

I doubt that anyone in Hopkinton would contradict my opening statement that the elementary education heirarchy in our town has not been noted (or notorious if you prefer) for bandwagon-jumping. Other than our one major excursion into progressivism-public supported kindergartens in 1969 – our posture has been reasonably conservative.[1]

I am not denouncing conservatism, rather I would concur that in a town such as Hopkinton with limited industry and practically non-existant federal funds, educational posture should be moderate in nature.

In my 1967 report, I stated that education must evidence continual progress. Although this is no proclamation denoting special wisdom, it happens to be just as true today as it was then.

I would like to present rather briefly three ways in which we can progress, and in a reasonable manner.

"Elementary School Reorganization – A Proposal"

During the summer of 1970, Mr. Brown, the Superintendent of Schools, and I collaborated on a proposal to reorganize the Hopkinton Elementary School System.[2] This proposal is presently available for anyone who wishes to read it so it would be pointless for me to re-state it at town expense in this report. Briefly, what we hope to do is to physically re-group our pupils so that all boys and girls who attend grades one and two (approximately 140 of them) would be housed at the Harold Martin School. All pupils Grades 3-6, (approximately 260 in number) would attend classes at the Maple Street School. We feel that this arrangement would make it possible to provide various educational improvements, both in grouping our pupils for learning experiences, and in the actual teaching process. In the upper grades I know we could make better offerings in subject matter areas if teachers could concentrate their efforts in the direction of fewer subjects. If you have tried teaching math, spelling, English, reading, social studies, science, and handwriting to a group of 25 sixth graders, you will know what I mean. We can also more effectively concentrate our resources (library books and materials, curriculum materials, graded audio visual materials, physical education equipment and materials, and music equipment) in the location where they will be used rather than having to duplicate everything we purchase.

One logical deterrant to this re-organization could be that of increased costs of transportation. Our figures indicate that we would be transporting 91 pupils who presently attend the Maple Street School to the Harold Martin School, and 77 pupils from the Harold Martin School to the Maple Street School. It should be understood that many of these pupils (the large majority of them who are presently housed at the Martin School) are transported at District expense at the

present time. Many of these pupils at the Maple Street School are either transported by the District or are transported daily by parents.

We practically run a shuttle-bus service between the two ends of town. Two 66 passenger busses travel from Contoocook to Hopkinton empty every morning of every school day. Both of these go from Hopkinton to Contoocook empty every afternoon of each school day. With the possible addition of one large bus, I feel that we can provide adequate transportation service for these pupils.

Our bus system is presently operating at a capacity level, wherein an added half-dozen pupils on most any given route could necessitate an added bus anyway. This fact, coupled with the educational advantages we could provide our elementary pupils, lends strong support to school re-organization.

"Specific Learning Disabilities"

At the March School District Meeting this year we will be asking the taxpayers to support the concept of a learning disabilities person to work in the schools of Hopkinton.

As we in education circles continually attempt to educate ourselves, we become aware of areas in which we have been negligent in providing for the educational welfare of our children. We have known right along that there have been children in our classrooms (from 10 to 25 percent of them) who each year have not made the progress we expected of them. They soon start to lag, most often in learning to read, and this lag becomes more and more obvious the longer they stay in school. Teachers, parents, and most of all the children themselves become frustrated when, year after year, despite the efforts of all concerned, scholastic progress is slow to negligible.

Many of these children have had extra reading instruction, either from participation in a yearly "remedial reading" program or often from private tutors. Gains have been painfully small in too many cases, null in some.

Some of us have rather recently become convinced that these children may have problems of a much more complex nature than the classroom teacher has been trained to diagnose, or remediate. Most teachers are not yet familiar with terms involved in distinguishing learning disorders or disabilities, to say nothing of trying to test for them or to provide individual training in a class of twenty five children.

We would establish the position of learning disabilities specialist, and attempt to hire a teacher to work in the following areas: 1. To select, administer and evaluate such tests and other screening devices as could be effectively used to distinguish learning disabilities, and 2. to work with pupils, teachers and parents in establishing practices and procedures to promote healthy growth patterns. Such a person, commencing a testing program right at the kindergarten level could identify pupils having learning disabilities and start corrective procedures long before these children became "failures" in school. No specialist can replace the effective classroom teacher, but he should be able to answer many questions

as to why Johnny can't seem to learn to read, or is not making progress in math – and help the teacher to do something about it.

"Physical Education in the Elementary School"

We must make plans to implement a good program of physical education in the elementary schools. This program *must* commence with kindergarten pupils and include every elementary school child in this town. In years past many of us (lay people and educators alike) felt that physical education was frosting on the cake – something that would be nice to have – but low on our list of priorities. "Kids get plenty of exercise, and if they don't, we sure are not going to hire someone to teach them to play games!"

How wrong we have been – on two counts! 1) in not recognizing the value of a physical education program and 2) in not recognizing that a properly operated physical education program implies much, much more than exercise and games. We now have plenty of evidence to support the premise that an adequate program of P. E. instruction can be very beneficial to a childs success in the academic areas.

The greatest emphasis in this type of program, Kindergarten and Primary grades, should be in helping the child to develop motor patterning and perceptual-motor activities. This will help him to a high degree to succeed in reading, writing, and arithmetic.

It is my professional judgement that a program of elementary school physical education, grades K-6, coupled with an adequate elementary music program with continued emphasis on movement experiences rather than rote singing, and supported by a person within our schools who is trained to recognize, identify and assist in the correction of learning disabilities – these three, working as one, should make it possible for us to help "ALL" children achieve in their educational endeavors.

Malcolm A. Merrill

1. This is intended in no way to deny nor negate the concerted efforts of an individual classroom teacher who became singularly disenchanted with "traditional" teaching methods and decided to individualize instruction within her classroom.

2. "Elementary School Reorganization – A Proposal" – Douglas H. Brown, Superintendent and Malcolm A. Merrill, Principal, December, 1970.

Of the 44 members composing the Class of 1970, 77% have continued their formal education – 47.7% at four year institutions. Those continuing their education are attending the following institutions: University of New Hampshire, Keene State College, Plymouth State College, Manchester Vocational Institute, Concord Technical Institute, Berlin Vocational School, Springfield College, University of Maine, Dartmouth, University of Tampa, Leicester Junior College, Graham Junior College, Quincy Junior College, Dean Junior College, University of Maine at Farmington, St. Joseph's College, Pembroke College, Bryan-McIntosh, Bucknell, Pierce Secretarial, Thompson School at the University of New Hampshire. Of the remaining members of the class of 1970, three are housewives and seven are gainfully employed.

The following individuals joined the staff in September 1970: Mrs. Karen Andrews – German; Mr. Wilfred Hill – Physical Education; Mrs. Mary Baker – Home Economics; Miss Barbara King – Business Education; and Mrs. Beverly Grenert – Science and Math.

This year we have made some changes relative to scheduling. First, in the junior high classes and in the required high school classes, we have abandoned grouping according to ability. Research is showing that the advantages claimed

for homogenous groupings are rarely achieved. This change has made it necessary for the subject matter teacher to provide for individual differences within those classes. Within the English area there has been considerable change. Objectives have been set up for each grade level and the units are designed to meet those objectives. In the upper grades, the latter part of the year, students will be given an opportunity to choose an area of study from a variety of areas offered. We are also experimenting with the use of a teacher's aide in the English area. It is hoped that an aide will give the teachers more time to plan and to work with small groups of students.

In the other basic areas, wherever possible, the work is taught on a team-teaching approach. The social studies have done a great deal of work in developing detailed units of study. However, the big handicap is finding the time to prepare units of work based upon sound educational objectives. Many possible solutions have been discussed but all are costly and therefore have to be given careful study.

Lastly, this year we adopted a rotating schedule of classes. The students seem to like the idea of not meeting the same class every day at the same time. Undoubtedly, the future will see other changes in the patterns of scheduling and in course offerings.
